

BIKE REPAIR

By Mark Woosencraft

The dedicated volunteers of the Green Bay Bike Collective operate a Mobile Repair Program in partnership with Green Bay Parks Department. In 2023, between June 14 and August 16, they serviced 58 bikes at 10 parks. Of the repairs, the vast majority involved brakes (or lack thereof!) and tubes. It has been amazing to see the interest in and need for this program grow over the past 2 years. Bike Fed supports the GBBC by lending an electric Larry vs. Harry cargo bike to be able to bring tools and supplies directly to those in need of service.

The Green Bay Bike Collective also worked with Bike Fed on many events. We supported rides including the BayCare Century, the Fat Tire Tour of Green Bay, and the Cocoon Brewing to

Cycling Brews Community Ride. We helped raise money at the Give Big Green Bay and Big Brothers Big Sisters Miles for Matches Fundraisers as well as the Bike Banquet Ride & Fundraiser. We displayed at the Farmers Market on Broadway. The Big Brothers Big Sisters Bike Rodeo and the Bike Rodeo @ Howe Elementary School with Howe Community Resource Center provided additional opportunities for us to work together.

Green Bay Mechanics:

Mark Woosencraft, Brian Dyer, Hannah Taylor, Mike Johnson, Heather Gentry
